

**ACCESSORI**

- Lamiera coprifossa (per le versioni incassate dei ponti standard ed OF)
- Pedanine automatiche coprifossa (solo per versione incassata)
- Kit d'illuminazione a bassa tensione
- Piatti provagiocchi a 4 movimenti
- Varie tipologie di traverse con martinetti di diversa portata
- Zincatura a caldo
- Kit di trasformazione dalla versione ad incasso a quella a pavimento e viceversa
- Kit di rampe allungate per veicoli ribassati (per versione a pavimento)
- Centralina stagna
- Aste anticesoimenti

**ACCESSORIES**

- Pit cover plate (for the flush-mount versions of the standard and OF lifts)
- Automatic pit cover plates (only for the flush-mount versions)
- Low-voltage lighting system
- 4-movement Play Detectors
- Several types of jacking beams with lifting jacks of different capacities
- Hot-galvanization
- Conversion kit from Flush mount version to Above ground and viceversa
- Set of longer ramps for low-profile vehicles (only for Above Ground version)
- Waterproof control panel cover
- Safety bars

**ZUBEHÖR**

- Abdeckblech für Grube (für die Versionen Einbau, standard und OF)
- Automatische Plattform für Grubenabdeckung (nur für Einbauversion)
- Recouvrement de fosse automatique (pour version encastrée)
- Beleuchtung mit niedriger Spannung
- Gelenkspieltester mit 4 Bewegungen
- Verschiedene Traversentypen für Achsabheber
- Feuerverzinkung
- Umbausatz von Einbauversion zur Aufbauversion (und umgekehrt).
- Kit de transformation del modelo empotrado al modelo sobre piso y viceversa
- Kit de rampes d'accès extra longues pour véhicules bas
- Wasserichter Steuerschrank
- Sicherheit Stäbe

**ACCESSOIRES**

- Pit cover plate (for the flush-mount versions of the standard and OF lifts)
- Automatic pit cover plates (only for the flush-mount versions)
- Low-voltage lighting system
- 4-movement Play Detectors
- Several types of jacking beams with lifting jacks of different capacities
- Hot-galvanization
- Conversion kit from Flush mount version to Above ground and viceversa
- Set of longer ramps for low-profile vehicles (only for Above Ground version)
- Waterproof control panel cover
- Safety bars

**ACCESOS**

- Pit cover plate (for the flush-mount versions of the standard and OF lifts)
- Automatic pit cover plates (only for the flush-mount versions)
- Low-voltage lighting system
- 4-movement Play Detectors
- Several types of jacking beams with lifting jacks of different capacities
- Hot-galvanization
- Conversion kit from Flush mount version to Above ground and viceversa
- Set of longer ramps for low-profile vehicles (only for Above Ground version)
- Waterproof control panel cover
- Safety bars

**ACCESSOIRES**

- Pit cover plate (for the flush-mount versions of the standard and OF lifts)
- Automatic pit cover plates (only for the flush-mount versions)
- Low-voltage lighting system

- Several types of jacking beams with lifting jacks of different capacities
- Hot-galvanization
- Conversion kit from Flush mount version to Above ground and viceversa
- Set of longer ramps for low-profile vehicles (only for Above Ground version)
- Waterproof control panel cover
- Safety bars

**SOLLEVATORI PER VEICOLI  
VEHICLE LIFTS****Vega (pesanti / heavy duty)****CARATTERISTICHE**

- Sicureze meccaniche automatiche

- Nessun ingombro sotto il veicolo

- Rapida installazione

- Nessun ancoraggio a terra e traslocabilità (per la versione standard)

**FEATURES**

- Mechanical safety locks

- No obstructions under the vehicle

- Quick installation

- No anchoring on the floor and easy relocation (for the standard versions)

**EIGENSCHAFTEN**

- Automatisches mechanisches Sicherheitssystem
- Niemand ist unter dem Fahrzeug
- Ein schneller Aufbau
- Keine Verankerung auf dem Fußboden (Standard-Variante verschiebbar)

**AVANTAGES**

- Sécurités mécaniques toujours actives
- Pas d'obstacles sous le véhicule
- Installation rapide
- Aucun ancrage au sol et donc déplaçable (pour la version standard)

**CARACTERÍSTICAS**

- Sistema de seguridad mecánica automática
- Ningún obstáculo debajo del vehículo
- Instalación rápida y sencilla
- Ningún anclaje en el suelo y, por lo tanto, facilidad para ser trasladado (para el modelo estándar)

# Vega

I ponti sollevatori VEGA sono elettroidraulici, a parallelogramma, ideali per sollevare ogni tipo di veicolo di grossa portata con distribuzione omogenea dei carichi a terra.

Portate:

da 12 a 52 tonnellate e anche superiori solo su specifica richiesta.

Tutti i ponti sono disponibili nella versione a pavimento ed incassata.

Le sollevatrici sono già conformi all'aggiornamento di Agosto 2010 della norma europea EN 1493.

Sono disponibili le seguenti tipologie:

**VEGA 120-180-240-340-450-520**  
(standard)

**VEGA OF 120-180**  
(senza base)

**VEGA NTB 120-180**  
(senza barra di torsione)

The VEGA type lifts, at parallelogram lifting system, are electro-hydraulic and suitable to lift any type of heavy duty vehicles with an even load distribution on to the ground. Capacities: from 12 to 52 tons and more on specific request.

All lifts are available in the Above Ground and Flush Mount versions.

The lifts are already according the updating of August 2010 of the european norm EN 1493.

Versions availability:

**VEGA 120-180-240-340-450-520**  
(standard)

**VEGA OF 120-180**  
(without base)

**VEGA NTB 120-180**  
(without torsion bar)

Bei den elektrohydraulischen VEGA Parallelogrammhebebühnen ist die Bodenbelastung auch bei ungleicher Lastverteilung gleichmäßig. Tragkraft von 12 bis 52 t, auf Anfrage auch höher. Alle VEGA Hebebühnen sind als Aufbau- oder Einbau-Hebebühnen erhältlich.

Die Hebebühne sind schon nach der Aktualisierung von August 2010 der europäischen Norm EN 1493.

Andere Modelle:

**VEGA 120-180-240-340-450-520**  
(standard)

**VEGA OF 120-180**  
(ohne Grundrahmen)

**VEGA NTB 120-180**  
(ohne Torsionstab)

Les ponts élévateurs VEGA sont électro-hidráulicos de paralelogramo VEGA tienen su aplicación en la elevación de cualquier tipo de vehículo de cargas elevadas logrando una distribución homogénea de la carga en el suelo.

Capacidad de carga: desde 12.000 kg hasta 52.000 kg; consultar para mayores capacidades de carga.

Les capacités: de 12 jusqu'à 52 tonnes. Des capacités supérieures sont possibles à la demande.

Todos los elevadores tienen dos variantes: el modelo sobre piso y el modelo empotrado.

Los elevadores están ya conforme a la actualización con fecha Agosto 2010 de la normativa europea EN 1493.

Configuraciones disponibles de elevadores de paralelogramo:

**VEGA 120-180-240-340-450-520**  
(standard)

**VEGA OF 120-180**  
(sin châssis de base)

**VEGA NTB 120-180**  
(sin barra de torsión)
